Eastern Markets Yesterday

BOSTON, Dec. 26.-The market today was quiet with a very strong tone, and acts at tonight's close as if it would have a good rise this week. The copper great were the most

active. Assaignmented and Utah Copper both sold at new high levels on thus movement. Butte Coalition, Live Cak and inspiration were well taken by what looked like New York

and higher prices in the copper stocks.

Desultory Trading Marks Re-sumption of Business After Three Days

NEW YORK, Dec. 26.-In appearance the stock murket today, after a triple holiday, was hardly changed and there was trading in the same dull monotonous way as in the preceding week. Total transactions for the day were only slightly in excess of two hundred thousand shares. Among the few stocks which moved widely Lehigh Valley and Great Northern ore certificates were conspicuous. Ores showed pronounced weakness early in the day but later recovered to the highest point since they were registered on the exchange. At the close some of the gain was test. The selling of late in Ores is probably based on reports of a further postponement of action in regard to the segregation of the property from the railroad, but there has been no authentic statement made.

The copper group developed strength in the afternoon when Ana-conda and Utah made substantial gains

D. S. Steel showed but moderate firmress. Reports from the steel trade continue favorable and it is ontimated that by the first of the year the pixnts of the steel corporation will be running close to 85 per cent of capacity.

Money rates showed no effect of the impending heavy demand for Janunry first payments, and it is apparent there is a large supply of loanship money on hand. All braks have received large remittances from out of town correspondents, which they wish to be prepared to take advantage of on spring in rutes if such a move-ment occurs at the end of the year.
